J. S. SPRINGER & BROTHER White Cloud, May 27, 1869-1y.

Many years ago, the writer of these lines and an invalid physician, while visiting the Island of St. Croix for their health, experienced and witnessed many surprising and beneficial effects of the Rum there produced upon many of the invalids who were (like curselves) seeking health; and, upon inquiry and investigation, obtained a full history of its medicinal virtues. He was delighted and surprised, and after his own recovery, which soon occurred, determined, if possible, to procure the sole right to manufacture

and sell it in the United States. The result of his labors was a glorious success for himself and suffering humanity, for the celebrated PLANTATION BITTERS was thus made known to the world. PLAN-TATION RITTERS being an article of real merit, founded upon new principles, and relying wholly upon the vegetable world for its medicinal effects, worked a rapid revolution in the history of medicine, and became as a household word all over the civilized. world. The cabalistic S. T.-1860-X. was a talisman of health, and the demand for the PLANTATION BITTERS soon far exceeded the abilities of the proprietors to supply.

Notwithstanding the large importation of St. Croix Rum, made expressly for the compounding of these Bitters, the quantity was inadequate. It therefore became necessary that arrangements upon an extensive scale abroad should at once be made, and an agent was dispatched to St. Thomas for that purpose. He was fortunate in securing and lessing several plantations on some of the largest and most productive estates on the island. Houses, stills and presses were erected as if by magic, which utterly "astone ished the natives." The services of experienced men and natives of the island were precured, and very soon the proprietors of the PLANTATION BITTERS were in a position to supply their laboratory with all the perfectly pure St. Croix Rum needed in manufacturing the GREAT DYSPEPTIC TOMIC AND INVIGORATOR. The above cut represent the natives crushing the sugar-cane and otherwise preparing it for the stills and presses.

As an antidote to Fever and Ague, Intermittent and Malarious Fevers, Dyspepsia, and other kindred diseases, the use of the PLANTATION SITTERS is unsurpassed in the history of the world. Over five million bottles are disposed of annually. They are adepted to old and young, male and female. They are agreeable in teste, and always produce an immediate beneficial result.
